## **10+ Entrance information and materials**

It is assumed that candidates are following the Year 5 Programme for Study of Mathematics, available via the DfE website

(https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment\_dat a/file/335158/PRIMARY\_national\_curriculum\_-\_Mathematics\_220714.pdf start page 31)

If any unfamiliar notation is used it will be fully explained in the question. Some of the questions near the end of the paper are intended to be of an original nature so may seem unfamiliar to students but will draw from mathematical thinking skills being developed in Primary Schools.

## ENTRANCE EXAMINATION PRACTICE QUESTIONS

#### MATHEMATICS (1 hour)

#### **Instructions to Candidates**

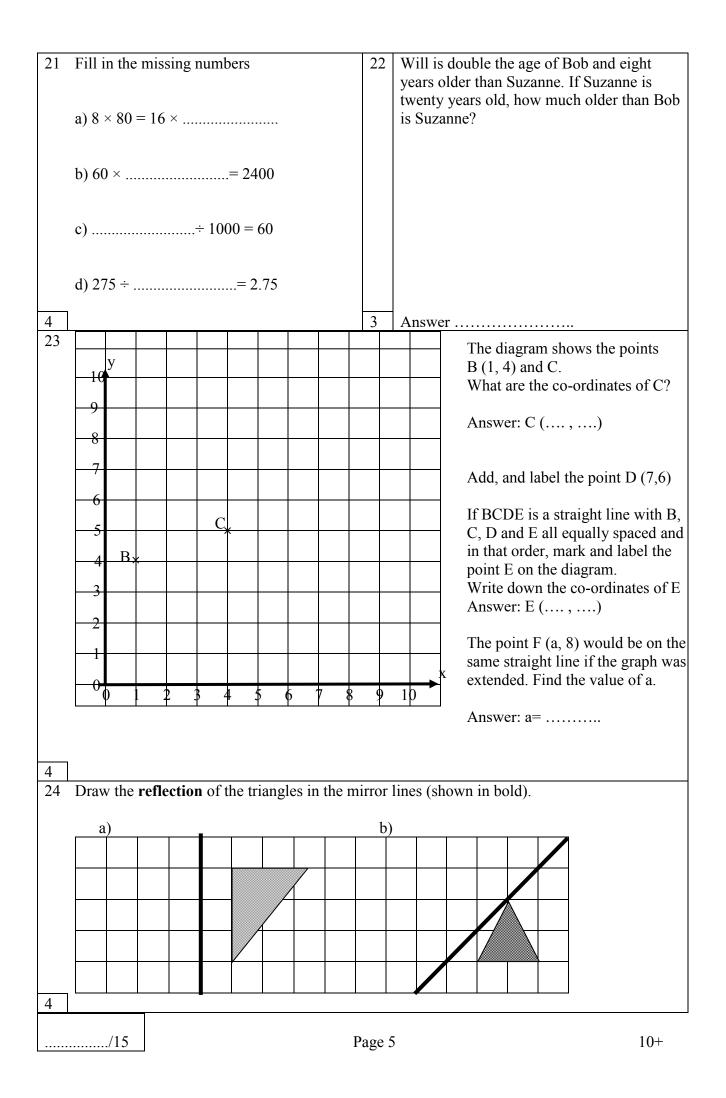

- 1. Write your name at the top of this question paper
- Try all of the questions. Do not spend too much time on any one question go on to the next. You can go back to a question if you have time at the end.
- 3. Show all necessary working in the space provided. DO NOT RUB OUT ANY WORKING unless you wish to change it.
- 4. Answers should be written on the answer line provided.
- 5. Do not write anything in the margins.
- 6. <u>Calculators are not allowed.</u>

1 4 11 2070 - 2075 - 452

question	
3 Answer:	3 Answer:
3 Multiply: $57 \times 48$	4 What is 2012 divided by 4?
3 Answer:	3 Answer:
5 Find one twelfth of £120	6 a) Write down the number two hundred and
	five thousand, three hundred and six in
	figures.
	Answer:
	(b) Write down in words, the value of the 5
	in the number 546027
2 Answer:	2 Answer:

3       Answer: £	7	Bharat buys two bottles of water at 85p each and four bars of chocolate at 72p each. How much does he spend altogether? Give your answer in £'s.	8	Jill pours out five 23 cl glasses of water from a full 150 cl bottle. How many cl are left in the bottle?
9       My train left Waterloo station at 2.37 in the afternoon. Write this time in the 24 hour clock.       10       Jenny thinks of a number. She adds seventeen and then divides by six. Her answer is five. What is the number that Jenny first thought of?         Answer:       Answer:       If the journey lasted two hours and forty-eight minutes, at what time did I arrive at my destination?       2       Answer:         11       A car travels at an average of 30 miles per hour. How long would it take to travel 10       2       Answer:	3	Answer: £	3	Answer:cl
If the journey lasted two hours and forty-eight minutes, at what time did I arrive at my destination?       interval         3       Answer:		My train left Waterloo station at 2.37 in the afternoon. Write this time in the 24 hour clock.		Jenny thinks of a number. She adds seventeen and then divides by six. Her answer is five. What is the number that
eight minutes, at what time did I arrive at my destination?         3 Answer:		Answer:		
11A car travels at an average of 30 miles per hour. How long would it take to travel 1012How many seconds are there in eight minutes?		eight minutes, at what time did I arrive at		
11A car travels at an average of 30 miles per hour. How long would it take to travel 1012How many seconds are there in eight minutes?	3	Answer:	2	Answer:
		A car travels at an average of 30 miles per hour. How long would it take to travel 10		How many <b>seconds</b> are there in eight
2   Answer:	2	Answer: minutes	2	Answer:seconds

13	For each part, put the values in numerical order, <b>smallest</b> first.	14 Add together 3 kg, 94g and 1kg 9g. Give your answer in grams.
	(a) 0.902 0.092 0.92	
	(b) $\frac{1}{4}$ $\frac{1}{5}$ $\frac{1}{3}$	
	(c) 0.89m 90 mm 90cm	
6		3 Answer:g
15	Look at the pattern below which continues for numbers!). 1 3 5 7 9 11 13 15 17	or ever (but I did not have time to write out all the
	Choose one word from this list which <b>best</b> do	escribes this pattern of numbers
	Square Factors Odd Even Prime	Answer
	Which number comes next? Answer	r
	The fifth number in the list is 9. What do you Answer	think the 45 <sup>th</sup> number in the list will be?
	What is the sum of the first six numbers in th	ie list?
	Answer	
	Another pattern is described as being the num first number in this pattern is also 1. Write de	nbers that are two less than a multiple of 3. The own the <b>next</b> four numbers in this pattern.
	Answer
